```java
 1 package com.company;
 2
 3 public class Java_22_Array {
 4     public static void main(String[] args) {
 5         //there are  3 ways to declare array
 6 //       int [] marks;
 7 //       marks = new int[5];
 8 //       //int [] marks=new int[5];
 9 //       marks[0]=1;
10 //       marks[1]=2;
11 //       System.out.println(marks[1]);
12         int[] marks = {1,33,2,4};
13         System.out.println(marks[3]);
14
15     }
16 }
17
```
